DESIGN SYSTEM · V1 · NOVEMBER 2026 · FOR REVIEW

Jawad Khamaysa

Side A is voice. Side B is design.

Two sides.

Jawad Khamaysa is an Arabic voice artist and a brand designer from Palestine. The identity treats the practice as a cassette with two sides. **Side A is voice. Side B is design.** Everything on the site is built from the objects of a small studio: a cassette for every voice sample, a printed sleeve for every brand piece, tactile keys for every action, a paper ticket for contact.

The objects carry the personality, so the page around them stays quiet: one paper ground, one ink, one gold signal.

THE IDEA IN ONE RULE

Every component is a real object with a real job. A cassette plays sound. A sleeve holds a printed document. A key is pressed. Nothing on the page is decoration that pretends to be one of these.

SIDE A — stripe-gold

Voice

Every sample is a cassette. Press play and the reels turn.

SIDE B — stripe-copper

Design

Every brand piece is printed matter on a colored bed.

BONUS TRACK — stripe-steel

Motion

Films and promos, marked in steel.

Day.

paper
`#f1f2ef`

Page background. A cool studio paper in Day, deep control-room navy at night.

paper-raised
`#ffffff`

Cards, sleeves, the dock and anything that sits on the page.

paper-sunk
`#e6e8e4`

Preview wells, the filter switch and the bed a cassette or sleeve rests in.

line
`#d7dbd6`

Dividers, perforations and input borders. Depth comes from shadows, not lines.

ink
`#0b192c`

Headlines and body copy on paper, paper-raised and paper-sunk.

ink-muted
`#4a5868`

Secondary copy and descriptions on all three paper surfaces.

ink-faint
`#5a6774`

Mono metadata, counters and captions on all three paper surfaces.

gold
`#d4af37`

The signal. Fill for the one primary key per view, the playhead, the active tape stripe.

on-gold
`#0b192c`

Text and icons on a gold fill. Never white.

gold-ink
`#7d5f10`

Gold as text: eyebrow labels and emphasis on the paper surfaces.

navy
`#0b192c`

Brand panels: the hero, contact ticket and Side A sleeves. Carries ivory text.

ivory
`#f6f5f0`

Text on navy and on the cassette shell.

ivory-muted
`#9aa4b1`

Secondary text on navy and on the shell.

shell
`#14181f`

The cassette housing and other hardware: tactile keys, the reel window.

shell-edge
`#2b323d`

Bevels, screw heads and the inner rim of the shell.

label
`#f6f3ea`

The J-card paper label on a cassette and the ticket stub on a sleeve. Same in both themes, like real…

label-ink
`#1a1d22`

Text printed on label.

stripe-gold
`#d4af37`

First tape stripe. Marks Side A, voice. A fill, never text.

stripe-copper
`#c88568`

Second tape stripe. Marks Side B, design. A fill, never text.

stripe-steel
`#94b0c7`

Third tape stripe. Marks motion and video. A fill, never text.

tape
`#3a2a1f`

Magnetic tape wound on the reels.

rec
`#c8321f`

The on-air lamp only. Means live: booking now, or a sample playing. Always paired with a word.

focus
`#0b192c`

Keyboard focus ring on paper, paper-raised and paper-sunk: 2px solid, 2px offset.

focus-inverse
`#e3c45f`

Focus ring on navy, shell and shell-edge: the hero, the control bay, a playing row.

Studio night.

paper
`#0a0f17`
Page background. A cool studio paper in Day, deep control-room navy at night.

paper-raised
`#111925`
Cards, sleeves, the dock and anything that sits on the page.

paper-sunk
`#070b11`
Preview wells, the filter switch and the bed a cassette or sleeve rests in.

line
`#222c3a`
Dividers, perforations and input borders. Depth comes from shadows, not lines.

ink
`#eceef1`
Headlines and body copy on paper, paper-raised and paper-sunk.

ink-muted
`#a6b1be`
Secondary copy and descriptions on all three paper surfaces.

ink-faint
`#8b97a5`
Mono metadata, counters and captions on all three paper surfaces.

gold
`#e3c45f`
The signal. Fill for the one primary key per view, the playhead, the active tape stripe.

on-gold
`#0b192c`
Text and icons on a gold fill. Never white.

gold-ink
`#e3c45f`
Gold as text: eyebrow labels and emphasis on the paper surfaces.

navy
`#13233a`
Brand panels: the hero, contact ticket and Side A sleeves. Carries ivory text.

ivory
`#eceef1`
Text on navy and on the cassette shell.

ivory-muted
`#9aa4b1`
Secondary text on navy and on the shell.

shell
`#05070a`
The cassette housing and other hardware: tactile keys, the reel window.

shell-edge
`#1c232e`
Bevels, screw heads and the inner rim of the shell.

label
`#ede8da`
The J-card paper label on a cassette and the ticket stub on a sleeve. Same in both themes, like real…

label-ink
`#1a1d22`
Text printed on label.

stripe-gold
`#d4af37`
First tape stripe. Marks Side A, voice. A fill, never text.

stripe-copper
`#c88568`
Second tape stripe. Marks Side B, design. A fill, never text.

stripe-steel
`#94b0c7`
Third tape stripe. Marks motion and video. A fill, never text.

tape
`#3a2a1f`
Magnetic tape wound on the reels.

rec
`#ff6a55`
The on-air lamp only. Means live: booking now, or a sample playing. Always paired with a word.

focus
`#e3c45f`
Keyboard focus ring on paper, paper-raised and paper-sunk: 2px solid, 2px offset.

focus-inverse
`#e3c45f`
Focus ring on navy, shell and shell-edge: the hero, the control bay, a playing row.

One calm family.

ARABIC FACE

Arad by Mohamad Darvishi. One variable file, weights 100 to 900, under the SIL Open Font License.

- Every role in Arabic is set in Arad: display, text and labels.
- Never condensed and never tracked; Latin rules for stretch and letter spacing stop at the script boundary.
- Line height rises to 1.2 on display and 1.7 on body.
- Display weights 700 to 900, text 400, labels 500.
- The layout mirrors; cassettes and sleeves keep their physical orientation.

Built on four.

SPACING

space-1		4px
space-2		8px
space-3		12px
space-4		16px
space-6		24px
space-8		32px
space-12		48px
space-16		64px
space-32		128px

A 4px base: space-N is N × 4px. Gaps, padding and section rhythm use only these steps. Inside an object, 2px half steps (2, 6, 10, 14) are allowed for hardware detail such as tag padding and screw insets. Sections sit space-16 apart below 1024px and space-32 from 1024px.

RADIUS

`radius-xs` 6px

`radius-sm` 10px

`radius-md` 16px

`radius-lg` 24px

`radius-xl` 32px

`radius-pill` 999px

Nested surfaces are concentric: outer radius equals inner radius plus the padding between them.

ELEVATION

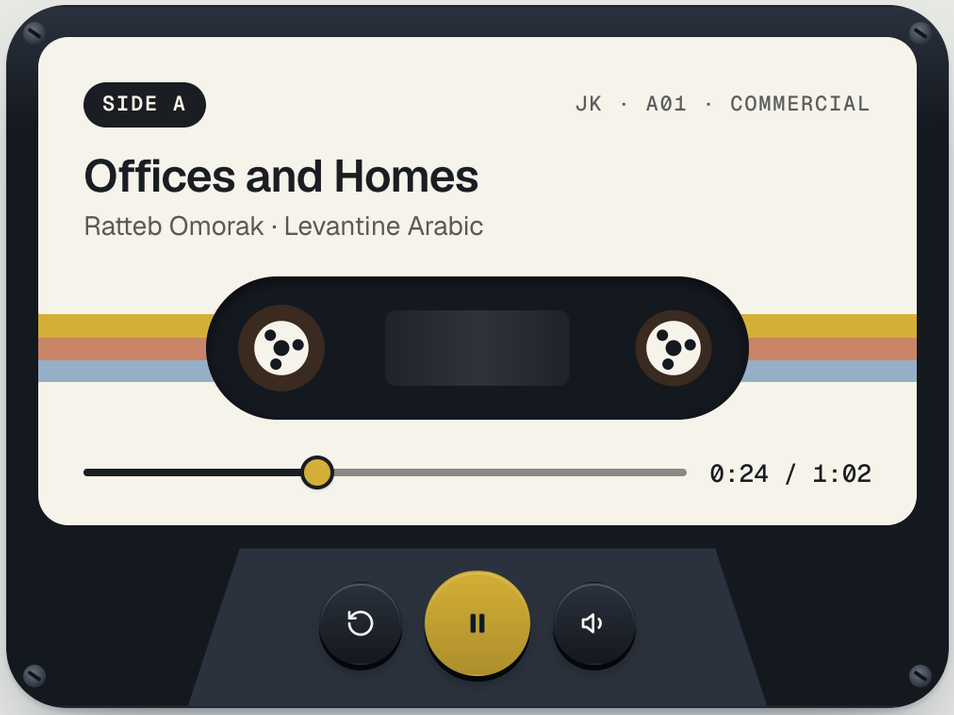

`shadow-rest`
Cards and sleeves at rest.

`shadow-lift`
Hovered sleeve, open menu, the dock.

`shadow-hardware`
The cassette shell: a heavy object resting on paper.

`shadow-key`
A raised tactile key. Pressed, the 3px base collapses to 1px.

The cassette replaces the waveform.

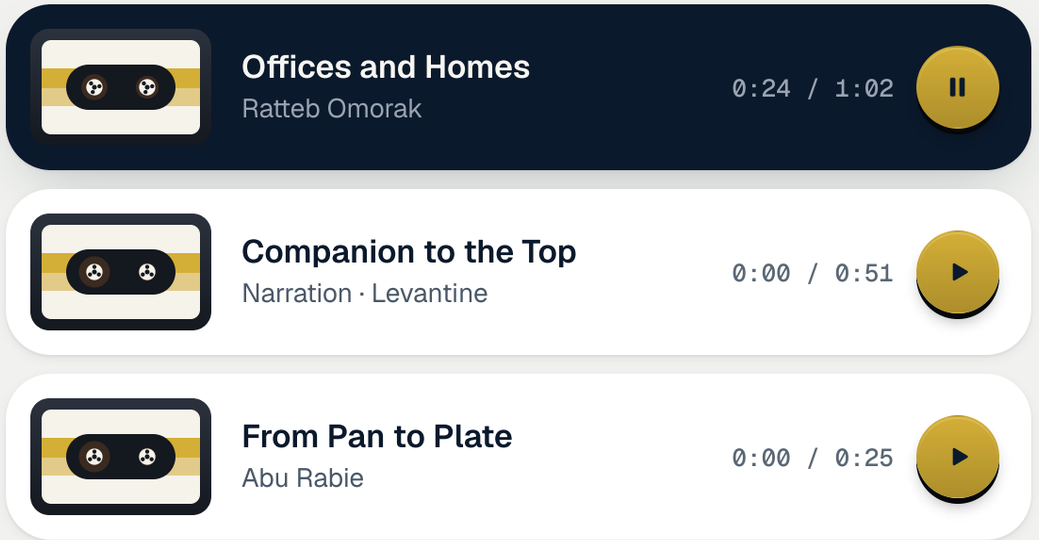

CASSETTEPLAYER

The featured sample. The reels turn only while it plays, and the tape pack winds from the left reel to the right with progress. Back 10s, play, mute; the track is a real slider.

CASSETTEMINI

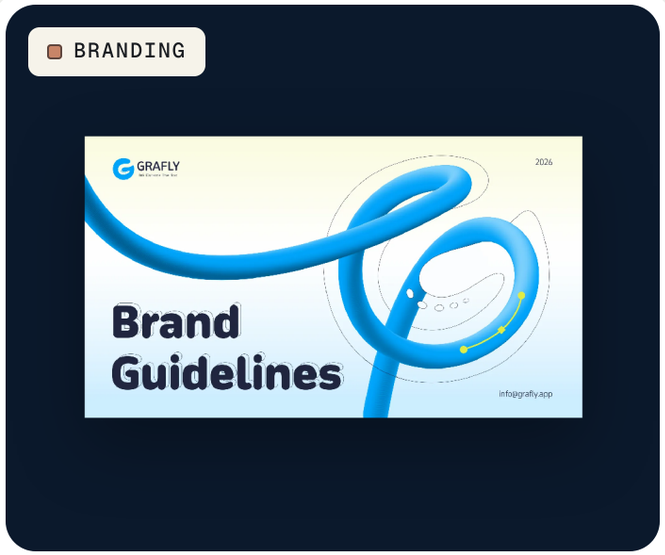

One row per sample in the library. One tape plays at a time.

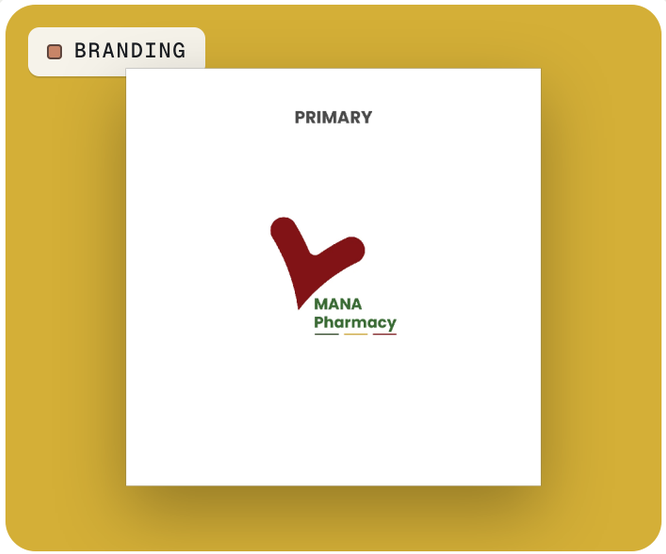

Work as printed matter.

ProjectSleeve
The cover page whole on a stripe-colored bed, never cropped, with a perforated ticket stub.

FilterSwitch
Live counts; a raised thumb slides to the choice.

TapeLabel
One category per item, colored by side.

Every button is a key.

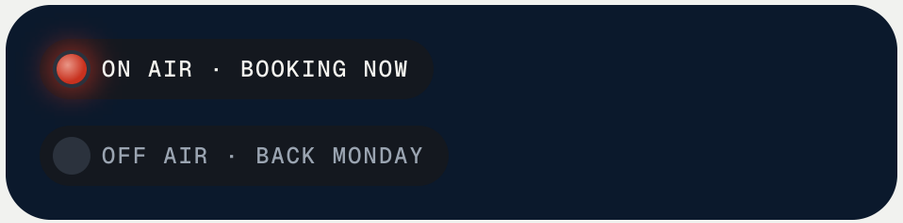

TACTILEBUTTON

A shaped face on a 3px base. Pressed, it scales to 0.96 and the base collapses to 1px in 150ms. Gold is the one primary per view; shell is secondary; paper is quiet.

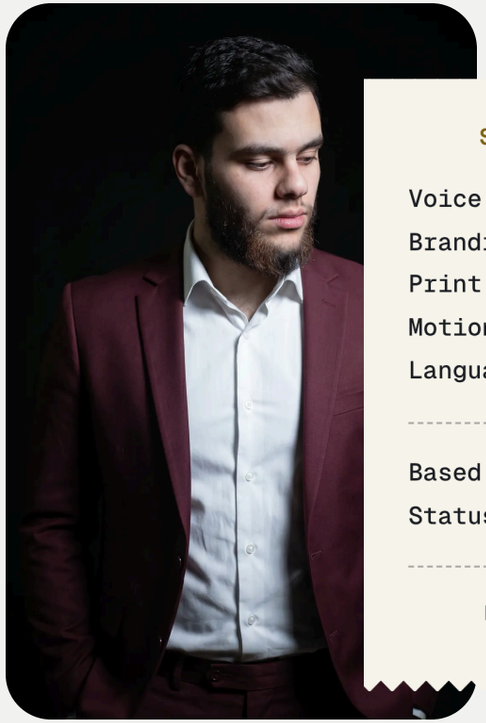

ONAIRLAMP

Availability, the way a studio shows it. Red is reserved for this lamp and always sits next to a word.

Dock Floating nav on every page: logo, four links, theme, language and the gold key.

Printed, not counted.

TOKEN	VALUE	USE
`ease-out`	`cubic-bezier(0.23, 1, 0.32, 1)`	Entrances, presses, anything responding to the user
`ease-in-out`	`cubic-bezier(0.77, 0, 0.175, 1)`	Something on screen moving to a new place
`ease-drawer`	`cubic-bezier(0.32, 0.72, 0, 1)`	Phone menu sheet and document viewer
`ease-icon`	`cubic-bezier(0.2, 0, 0, 1)`	Icon swaps without a spring
`press`	`150ms`	Key travel down and back
`swap`	`300ms`	Play to pause, copy to copied
`overlay`	`300ms in · 150ms out`	Viewer, sheets
`enter`	`300ms · 100ms stagger`	First view of a section

WHAT STAYS STILL

- Nav links, filters, labels and toggles change color in 150ms or less.
- Native scroll only. No smooth-scroll hijacking.
- Retired: magnetic buttons, cursor followers, perspective grids, velocity marquees, letter-by-letter reveals.
- Theme switches are instant. Counters update, they never roll.
- Reduced motion: nothing travels, scales or spins. Keys show the press in place, reels stand still, and the counter, packs and icons still update.

THE SIX MOTIONS THIS SYSTEM OWNS

01 **Key press**
Scale 0.96, the base collapses 3px to 1px, 150ms.

02 **Reels**
Turn at one linear speed only while tape plays; the pack winds across with progress.

03 **Transport swap**
Play to pause: scale 0.25 to 1, fade, 4px blur to 0, 300ms.

04 **Ticket out**
A document slides up from its sleeve with ease-drawer, 300ms; back in 150ms.

05 **Section entrance**
Title, copy, objects arrive 100ms apart from 12px below and 4px blur. Once.

06 **On-air lamp**
Breathes every 2.4s only while live.

Short, plain, specific.

COPY

Jawad Khamaysa is an Arabic voice artist and a brand designer from Palestine. The identity treats the practice as a cassette with two sides. **Side A is voice. Side B is design.** Everything on the site is built from the objects of a small studio: a cassette for every voice sample, a printed sleeve for every brand piece, tactile keys for every action, a paper ticket for contact.

The objects carry the personality, so the page around them stays quiet: one paper ground, one ink, one gold signal.

COLOR

Jawad Khamaysa is an Arabic voice artist and a brand designer from Palestine. The identity treats the practice as a cassette with two sides. **Side A is voice. ACCESSIBILITY

Jawad Khamaysa is an Arabic voice artist and a brand designer from Palestine. The identity treats the practice as a cassette with two sides. **Side A is voice. Side B is design.** Everything on the site is built from the objects of a small studio: a cassette for every voice sample, a printed sleeve for every brand piece, tactile keys for every action, a paper ticket for contact.

The objects carry the personality, so the page around them stays quiet: one paper ground, one ink, one gold signal.

One job, one gold key.

HOME

1. **Hero** Navy panel, bright portrait, the name, the on-air lamp, “Book a session”, and the featured cassette ready to play.
2. **Side A · Voice** “Listen first.” Two cassettes, then “All samples”.
3. **Side B · Design** “Selected work.” Four sleeves from the CMS, then “All projects”.
4. **In motion** The promo film on a steel bed.
5. **Studio log** The low-key portrait beside the receipt.
6. **Contact** The ticket on navy.

VOICE

“Hear the range.” Filter (All, Commercial, Narration), then one cassette row per sample, playable in place.

WORK

“Selected work.” Filter (All, Branding, Print, Motion), then the sleeve grid. A sleeve opens its document; a motion sleeve opens its film.

EVERYWHERE

The dock, a quiet footer, and Arabic that mirrors the layout while cassettes and sleeves keep their physical orientation.
